Seed and Plant Pledge for Sooke Seedy Saturday

The goal of our Seedy Saturday is to promote local ecologically grown seed and plants and support local seed producers and growers. The people coming to our event expect all the seeds and plants at the event to be GMO free, safe for our environment, grown out by the vendor or at least clearly indicated if not grown by the vendor, and clearly labeled as such if invasive. You can learn more about which species are considered invasive at: www.coastalisc.com/images/stories/CRISP/CRISP_IP_Species_List_web.pdf

By agreeing, each vendor confirms that:

- a) you are not knowingly selling GMO seed or plants;
- b) the seeds/plants you are selling have been grown out by you or your designate, either on your property or an offsite location that you approve;
- c) the seeds/plants you are selling have been grown out by another grower for which you have an exchange arrangement in place, and you identify this detail in your respective catalogues or at your table;
- d) any seed/plants grown by farmer(s) you do not know are clearly identified as such at your table, in your respective catalogs or on your seed packets.
- e) any seeds/plants you sell considered invasive are labeled clearly as such.

5. Have you read and agree with the above terms of the Safe Seed Pledge? Y/N
